US Capital Global Engaged by Ternio as Exclusive Partner on Capital Formation

TERNIO

San Francisco-based private financial group provides financial services to scalable blockchain company pioneering high-speed, high-volume B2B blockchain transactions.

SAN FRANCISCO, SEPTEMBER 2018 – **US Capital Global** announced today that it has partnered with Ternio, LLC (“Ternio”) to support the firm’s capital formation needs. Based in Georgia, this early-stage blockchain company is seeking funds to launch its own custom, high-speed blockchain platform, Lexicon, and to develop its own prepaid cryptocard, to be used wherever VISA is accepted.

Headquartered in San Francisco, US Capital Global is a full-service private financial group with an established track record in capital formation advisory on debt and equity finance and capital raise services. The firm focuses on providing lower middle market businesses and in-vestors with sophisticated debt, equity, and investment products usually available only to larger companies and institutional investors.

“This is an exciting time for Ternio as we move forward in the development of our patent-pending blockchain platform,” said Daniel Gouldman, co-founder of Ternio. “In raising capital to develop our BlockCard™ and accelerate our overall company growth, US Capital Global’s financial insight and support will be an invaluable asset.”

“We are very pleased to be working with Ternio on this capital formation, as the company’s exclusive financial partner,” said **Charles Towle** at US Capital Global. “As Ternio forges ahead with its Lexicon Blockchain platform, it aims to become the first platform for high-speed, high-volume B2B transactions with its own Block Card™.”
