

US Capital Global Securities Provides Advisory Services for Cardax, Inc.

Global private financial group supports the growth of development-stage biopharmaceutical company combatting cardiovascular disease, arthritis, and aging.

SAN FRANCISCO, FEBRUARY 2022 – **US Capital Global Securities LLC**, an affiliate of US Capital Global, is pleased to announce that it has provided customized advisory services for Cardax, Inc. (“Cardax”), in connection with a proposed \$10 million in equity financing. Headquartered in Honolulu, Hawaii, Cardax (OTCQB: CDXI) is a biopharmaceutical company focused primarily on developing pharmaceuticals to safely address chronic inflammatory disease. Cardax also markets ZanthoSyn®, a physician-recommended dietary supplement for health and longevity.

Headquartered in San Francisco, US Capital Global is a full-service private financial group with an established track record in corporate finance, asset management, and capital formation services. All private placements, securities, and other related services are offered by the group’s FINRA-member broker dealer affiliate, US Capital Global Securities LLC.

“Cardax’s mission is to safely combat chronic inflammation, one of the major drivers of chronic disease, including cardiovascular disease, metabolic disease, liver disease, arthritis, and aging,” said **Charles Towle**, CEO at US Capital Global Securities. “At an inflection point in its growth, Cardax sought \$10 million in financing to advance its lead pharmaceutical candidate, CDX-101, from pre-clinical to clinical development. US Capital Global Securities provided customized advisory services for Cardax in connection with a proposed \$10 million financing.”

About Cardax, Inc.

Cardax is a biopharmaceutical company focused primarily on developing pharmaceuticals for diseases driven by inflammation. The company also has a commercial business unit that markets ZanthoSyn®, an astaxanthin dietary supplement for inflammatory health. CDX-101, the company's astaxanthin pharmaceutical candidate, is being developed for cardiovascular inflammation and dyslipidemia, with a target initial indication of severe hypertriglyceridemia. CDX-301, the company's zeaxanthin pharmaceutical candidate, is being developed for macular degeneration. The safety and efficacy of the company's pharmaceutical candidates have not been directly evaluated in clinical trials or confirmed by the FDA. www.cardaxpharma.com
